

Skellerup Footwear

NEW

Introducing the Skellerup Aqua Terra™ Boot

Designed specifically for smooth wet surfaces, the Skellerup Aqua Terra boot has;

- A unique squeegee sole to provide maximum grip
- A super flexible, proprietary rubber upper compound designed for comfort and unrestricted movement
- Quick drying, polyester knit fabric lining
- Internal steel toe protection which meets the requirements of ASTM 2413-05
- PU comfort foam layer over the foot for increased warmth and comfort
- Removable PU orthotic footbed and a double comfort system for increased comfort
- Chemical and oil resistant nitrile sole
